EDUCATION

Amity University   **Jan 2023 – Jan 2026**
Bachelor of Computer Application   *, India*

OBJECTIVE

Dedicated and enthusiastic Web Developer with a strong background in React JS, Tailwind CSS, MySQL, and PHP, along with familiarity in Next.js and Node.js. Passionate about machine learning and eager to contribute my skills to innovative projects.

EXPERIENCE

Web Developoer intern   **Jul 2023 – Present**
Venuratech Solutions   *Uttar Pradesh, India*
- Developing REST API using PHP and mySQL to store data from learning management systems
- Utilize React JS and Tailwind CSS to develop user-friendly and responsive front-end interfaces.
- Collaborate with a team of developers to create and maintain web applications.

PROJECTS

Venuratech Solutions Website | *React js, Tailwind CSS, Git*
- Designed and developed the official website for Venuratech Solutions during my internship.
- Utilized React JS and Tailwind CSS to create a modern and user-friendly web platform.

Sorting Visualizer | *React js, Bootstrap 5, Javascript*
- Created a sorting visualizer to demonstrate various sorting algorithms, including Merge Sort, Bubble Sort, Insertion Sort, and Quick Sort.
- Used React JS to build an interactive and real-time visualization of sorting processes.

Pathfinding Visualizer | *React js, Bootstrap 5, Javascript*
- Developed a pathfinding visualizer using Dijkstra's algorithm.
- Implemented JavaScript and React JS to visualize and interact with the algorithm.

TECHNICAL SKILLS

Languages: Java, Python,SQL, mySQL, JavaScript, HTML, CSS, Javascript
Frameworks: React.Js, Node.Js, Next.Js, WordPress, GSAP
Developer Tools: Git, VS Code, IntelliJ, Jupyter Notebook, Google Colab
Libraries: pandas, NumPy, Matplotlib
